

T-CUT®

Tetrosyl

THE CREAM OF BRITAIN

Original

T-Cut has been restoring cars for generations but what you may not know is that craftsmen have been using T-Cut for lots of other applications including restoring antiques, removing scratches and brightening paintwork on household appliances like cookers and fridges, ceramic and plastic baths to uPVC windows and patio furniture, metal and painted items including radiators.

In fact we don't know all the uses for T-Cut as it has been the Cream of Britain since 1954 and one of its best kept secrets.
